THE TERRITORY OF NEBRASKA
EMBRACING THE PUBLIC SURVEY UP TO THE SUMMER OF 1857
COMPILED & DRAWN IN THE SURVEYOR GENERAL'S OFFICE FROM ORIGINAL NOTES
QUIN SMITH & VAN ZANDT
Scale: Five Miles to One Inch
I have examined with much care this Map of Nebraska compiled at intervals by Messrs. Quin Smith and Van Zandt of this office and feel pleasure in testifying to its correctness. It not only accurately and truthfully delineates with artistic beauty and nicety of detail all the topographical data found in the original notes up to the present date, but also represents from no less reliable sources, a large amount of other useful information, which cannot fail to make it highly acceptable to the public.
Surveyor General's Office Lecompton, K.T.
